

## **Nature site – Lead responsibility people**

Key people who wanted to take Lead responsibility for an area of wk (arranging work groups on it, keeping track on what needs doing etc) are:-

**Simon:** Large pond

**Jim:** Noticeboard and entrance to site. Letting non-plot holders in at gate for a session.

**Sally:** arranging events.

**Dave:** new web site

**Liz:** species inventories

Everyone does any of the tasks and helps named people when they call a session/ or asks for help.

Jim will let people in at the gate if he's available, so remember to ask him when arranging a session. (Grecia has also frequently manned the gate).
